# Breakfast in Bed (Paused)

Par Cwby

*Album : Breakfast in Bed*

Late nights turn to early mornings

Mornings turn to later afternoons

The sun is knocking

Not as loud as

My headboard

At seven thirty two

Hey

I already put my intention on you

You're mine

**After a long night**

**I play back**

**You seem like**

Directing

Affection

**Between us**

**I look right**

**You wake up**

**And look at me**

**You know what**

**Just what I need**

**I want it too**

We're in the mood still

**You can hear my appetite go**

Ugh Ay

I'ma need those legs

To spread out

**Breakfast is served**

**Breakfast in bed**

**Before you head out**

**Just one more taste**

**Know that breakfast is served**

**Breakfast in**

**Breakfast in bed**

Sweet as a yogurt parfait

Strawberry offerings, yeah

Syrup on her body, yeah

Whipped cream for some foreplay yeah

Plate full

Oh she thick as Texas

I want an early lunch

A second breakfast

Fold her like an omelette

Promise I'm a hook her

Early riser special

Need the powder sugar

**After a long night**

**I play back**

**You seem like**

Directing

Affection

**Between us**

**I look right**

**You wake up**

**And look at me**

**You know what**

**Just what I need**

**I want it too**

We're in the mood

Still

**You can hear my appetite go**

Ugh ay

**I'ma need those legs to spread out**

**Breakfast is served**

**Breakfast in bed**

**Before you head out**

**Just one more taste**

**Know that breakfast is served**

**Breakfast in**

**Breakfast in bed**

**Don't you get out of**

**Don't you get out of**

Don't you get out of bed

You gave me a taste

Now I can't let you go

The table's been set

I'ma eat till I'm full

Full on your loving

**I'ma need those legs to spread out**

**Breakfast is served**

**Breakfast in bed**

**Before you head out**

**Just one more taste**

**Know that breakfast is served**

**Breakfast in**

**Breakfast in bed**
