A LETTER

Par Cyua

Album : ?????????UC COMPLETE BEST

All my friends have gone away

I need myself to sing this song

But you always passed away

But It seems to be OK

All my wish and powers

They would take me to the gate

Should I really find my problem?

Do I really want to know about?

I'm writing a letter for me

Is there anything I would say?

I don't have to throw my life away

Everything goes wrong to turn into the way of life

This could take so long to find the way

All those people cry in vain

Now I see the light in pain

I can find the way of love

You don't have to throw your life away

Everything goes wrong to turn into the way of life

This could take so long to find the way

All those people cry in vain

Now you can see the light in pain

Say good bye into the perfect sky

But it's your love can be the real life line
