# Where Did You Go?

Par d4vd

Album : *WITHERED*

I told you I didn't know

That a house don't mean that you got a home, oh

How hard it is to live alone

After havin' someone around, 'round

Drownin' in chemicals

Pacin' back and forth around my livin' room

Drinkin' all the water in the swimmin' pool

Prayin' that the chlorine can clean me too, oh

'Cause I still remember the nights you sung me to sleep

And you whispered softly never to leave

It's the moment I heard you walkin' away from me there

**Where did you go?**

**You're nothin' but a memory, yeah**

**Oh, where did you go?**

**I needed you next to me**

Why am I still looking for an answer

That will never come?

Left me alone in an empty bed

With the songs you never sung

I just need a text or a call sayin' that you moved on

More direct to the heart, but you send me a card

No, I won't be alarmed, just expected much more

From someone that I gave it all for

**Where did you go?**

**You're nothin' but a memory, yeah**

**Oh, where did you go?**

**I needed you next to me**

**Where did you go?**

**You're nothin' but a memory, yeah**

**Oh, where did you go?**

**I needed you next to me**

Don't need you to like my story, text me back

Call my number soundin' regretful

Say you're sorry while your voice cracks, 'cause I know

That you were okay with walkin' away
