Voices of the Night

Par David Arkenstone

Album : Another Star in the Sky

Listen close and you will hear

Voices of the night

Secrets they will tell, whisper in your ear

Listen to the voices of the night

A song comes through the trees

It's a magic breeze

Sailing along just like a dream

Under the starry skies

Finally the voices clear to me

Calling to us to fly

Into the night

Watch the ripples in your hair

Stars become alive

Trees upon the shore whisper with the wind

Listen to the voices of the night
