When We Are Singing

Par David Byrne

Album : Who Is the Sky?

When we are singing

I know the way we look
Swimming, drifting, floating on
And everything is true

Everything is true

When we are singing

When we're far away
What were you thinking of
In that distant place?
The look on someone's face, yeah

When you turn the pages

I heard you call my name

We've got one foot in the pearly gates

And one foot in the flames

When we are singing

Can you name that tune?

The words go 'round in circles

But everything is true, yeah

Everything is true now

When you turn the pages

I heard you call my name

We've got one foot in the pearly gates

And one foot in the flames

Everything is true, yeah

Everything is true
