# Generic Reconstruction (Live at Streets, New Rochelle, NY, March 17th, 1990)

Par Death

*Album : Spiritual Healing*

Extending a life with total resistance

To fatal disease, Future methods of science

Replacing what is real by using technology

Population control, Selecting those who will breed

A specific type of form chosen for the unborn

A mind without emotion

Progressive anatomy

Genetic reconstruction

Evolution in production

Producing a race of human machines

A new age of existence the world will see
