# Goodbye My Love

Par Delta Queens

*Album : Eurobeat Masters: The Missing Files Stage 6*

Your time is gone

Put your stuff together

Time to move it on

Adios

**I will survive**

**By my self forever**

**Leave behind my darkest day with**

**You in my life I never felt so denied**

**Now in my life I want to be on my own**

**And go on for the future**

**Bye goodbye my love**

**Another story incoming**

**Bye good bye my love**

**Don't want no more your loving**

**I realized I want my life to be**

**Take care of you, just you forever**

**Bye goodbye my love**

**Another story incoming**

**Bye good bye my love**

**Don't want no more your loving**

**I realized I want my life to be**

**Only passion and hot emotions**

My love is gone

No more time together

Need to move it on

Adios

**I will survive**

**By my self forever**

**Leave behind my darkest day with**

**You in my life I never felt so denied**

**Now in my life I want to be on my own**

**And go on for the future**

**Bye goodbye my love**

**Another story incoming**

**Bye good bye my love**

**Don't want no more your loving**

**I realized I want my life to be**

**Take care of you, just you forever**

**Bye goodbye my love**

**Another story incoming**

**Bye good bye my love**

**Don't want no more your loving**
