## Paroles de chanson

04/05/2026

### Name (Album Version)

Par Derek Webb

*Album : The Ringing Bell*

oh my darlin', you've must be a moving target just like me

they'll call you right, they'll call you left

they'll call you names of all your friends

you never know

what you'll have to do

**baby don't let 'em**

**don't let 'em put a name on you**

there's no categories just long stories waiting to be heard

**(if there's love in your heart)**

don't be satisfied when someone sums you up with just one word

**(if there's love in your heart)**

blindfold your heart

and feel for a clue

**baby don't let 'em**

**don't let 'em put a name on you**

(Bridge)

you say you wanna know the people I know

you say you wanna come in and crack my code, uh huh

catch me if you think you can

but count on me for nothing man, uh huh

it's gonna take more than hearing you say the only words you think I know

the truth may be with you today but may be gone tomorrow

**baby don't let 'em**

**don't let 'em put a name on you**
