# The Wagon

Par Dinosaur Jr

*Album : Fluxblog 1991 Survey*

There's a way I feel right now

Wish you'd help me, don't know how

We're all nuts, so who helps who?

Some help when no one's got a clue

**Baby, why don't we?**

**Baby, why don't we?**

**There's a place I'd like to go**

**When you get there, then I'll know**

**There's a place I know you've been**

**Here's a wagon, get on in**

**Baby, why don't we?**

**Baby, why don't we?**

**Baby, why don't we?**

**Baby, why don't we?**

**Why don't we?**

**You won't see me**

**You won't see me**

There you are, and here I stand

Trying to make you feel my hand

**You won't see me**

**You won't see me**

**I ring the doorbell in your mind**

**But it's locked from the outside**

**You won't see me**

**You won't see me**

**You don't live there anyway**

**But I knock on it all day**

**You won't see me**

**You won't see me**

**There's a place I go**

**But you're not there**

**And I'm supposed to know**

**How to get to where you're going to be**

**But you don't even know**

So I'm flaking while you're shaking it

With every stone you fly

Without a mind, without a spine

**What is it that you wanna find?**

**There's a place I go**

**But you're not there**

**And I'm supposed to know**

**How to get to where you're going to be**

**But you don't even know**

So I'm flailing while you're sailing off

Without a course in mind

Without a mind, without a dock

**What is it that you wanna find?**

**There's a place I'd like to go**

**When you get there, then I'll know**

**There's a place I know you've been**

**Here's a wagon, get on in**

**Baby, why don't we?**

**Baby, why don't we?**

**Why don't we?**

**You won't see me**

**You won't see me**

There you are and here I stand

Trying' to make you feel my hand

**You won't see me**

**You won't see me**

**I ring the doorbell in your mind**

**But it's locked from the outside**

**You won't see me**

**You won't see me**

**You don't live there anyway**

**But I knock on it all day**

**You won't see me**

**You won't see me**
