Love Comes Again

Par Dj Tiesto

Album : Love Comes Again

You have become what you have always been

Light flickering around with real vision

No words we can speak of paths to be chosen

All trails that we trek shall lead us back to here

Because our love comes again

Just when I've broken love I found

Love can come again

You gotta believe that love comes again

Just when I've broken love I found

Love can come again

Deep within me, turn over secret stones

Forests and fields bleeding with blood and bones

Still no words we can speak of paths to be chosen

All trails that we trek shall lead us back to here

Because our love comes again

Just when I've broken love I found

Love can come again

You gotta believe that love comes again

Just when I've broken love I found

Love can come again
