I Will Follow

Par Dotan

Album : Dotan

All the years I've been waiting
Knocking heads with my patience
Letting someone go
But I don't really know

I got lost in the system
Like a light in the distance
But you showed me how to glow
How I'll never know

Talk me back to life

Show me piece of mind

Pull me in pull me closer

Close my eyes going under

Cause I don't need a reason

Or something to believe in

Your eyes let me know

Like footsteps home

I will follow

Now there's no more screaming

I'm silencing the demons

Your eyes let me know

Like footsteps home

I will follow

Fall asleep in the daylight

I'm at ease for the first time

I don't need control

I can let it go

Cause every thought on the inside

Is like a drug that I can't fight

A different kind of low

I think I kinda know

Talk me back to life

Show me piece of mind

Pull me in pull me closer

Close my eyes going under

Cause I don't need a reason

Or something to believe in

Your eyes let me know

Like footsteps home

I will follow

Now there's no more screaming

I'm silencing the demons

Your eyes let me know

Like footsteps home

I will follow

Follow you

Follow follow you

Follow follow you

I will follow follow you

Follow follow you

Follow follow you

Cause I don't need a reason

Or something to believe in

Your eyes let me know

Like footsteps home

I will follow
