# Traversing Through The Arctic Cold We Search For The Spirit Ofyuta (Intermission)

Par Dredg

*Album : Leitmotif*

You don't hide your wound on the inside, in

Don't talk anymore deepen inside your head

Chew a little bit of thoughts, leave it

All we are, we are

(? nobody)

We are

(? nobody,? nobody)

All we are

All we are

?

Take my fate, you got me away

The way you walk

The way you see

Is all I had to see

This time (yeah) make me feel, the flame go (yeah)

(?)

(Don't fall on the spear)

Don't ever dare the sky

I can't be you

(?)

You

(?)

(?)

**No, lead my way**

**No, lead my way**

**Hope you'll be waiting**

**Hope you'll be waiting, I'm falling apart**

**Hope you'll be waiting**

Hope you'll be waiting, need you inside

**Hope you'll be waiting**

**Hope you'll be waiting, I'm falling apart**

(wait for me?)

Hope you'll be waiting

Hope you'll be waiting
