World Full of Snakes [Explicit]

Par Droeloe

Album : A Matter Of Perspective [Explicit]

I'm livin' in a world full of demons

I'm livin' in a world full of snakes

I'm livin' in a world where it seems as

Everybody full gas, no breaks

I'm livin' in a world full of demons

I'm livin' in a world full of ssss

I'm livin' in a world where it seems as

Everybody full gas, no breaks

I'm getting tired of the rules

All hail to the king while he is firing some fools

I feel like I'm conspiring with tools

Though undeniably cruel, I admire them too

'Cause when I'm in it, I put two fingers in your business

Slitherin' in thick shit, lookin' for a thick bitch

Listen, I can't afford to be missin' the shots that I take

So watch out for your pigeons

Everybody's running for themselves now

All-day schemin' to keepin' the brand loud

Whistling a song like it's all good

All-sweet money on-demand now

I got nothing to lose 'til there's nothing left of it

Beggars can choose, acting a fool, I'm a degenerate

Writing the president every day, work his will and his testament

Carving away, finessing, the whole way through

I'm a snake in the grass, I am just like you

I'm livin' in a world full of demons

I'm livin' in a world full of snakes

I'm livin' in a world where it seems as

Everybody full gas, no breaks

I'm livin' in a world full of demons

I'm livin' in a world full of ssss

I'm livin' in a world where it seems as

Everybody full gas, no breaks

Clock my mentality to recognize yo' type
Yo' ways of goin' with the known hype
You'll stay in the snake pit, no life
No venom in my veins 'cause you won't bite
Thick skin, a mo'fucker tryna begin
To live in honesty and win-win situations
Temptations hide in yo face and
Make way for the rat-racin' men
Tryna find a space to be more than friends
Bite you in the back with a venomous fang
Goin' for the cake, they will break and bend
Any code, any rule, any law, any damn fucking fact
Trust me when I say all fame ends, mo'fucker

I'm livin' in a world full of demons

I'm livin' in a world full of snakes

I'm livin' in a world where it seems as

Everybody full gas, no breaks

I'm livin' in a world full of demons

I'm livin' in a world full of ssss

I'm livin' in a world where it seems as

I get the call in this mo'fuckin' booth

Yo, Ajuna, I'm tryin' to rap in the booth

Help in the studio with my crew

Hey Ajuna, hoe is het... gelukt met de katten?
