6 Million Ways To Live

Par Dub Pistols

Album : Bad Company

Six million ways to live, we live lavish
Superior deluxe rap status
To carry that mattress with no bounce
A sharp cactus, blanket
Leavin' scratches across the atlas
Buildin' above civilians
Takes two looks to recognize the villain
Two blinks to make your heart sink
Three-sixty degrees like a roller rink
That's how my life moves upon a solar ring
Try so hard my soul to sing,
But still my pen moves on to bolder things
Can't hang like a soldier around you
He who can't compete against a flowing thing
Blood is the life through the mainframe
Keep it up top of stray slayings

Stayin' strong so I maintain

Through the snow of rain

Plus the growing pain

Did someone leave a glowing stain?

It evaporates my flow's a burning flame

In a bit it freeze so just relax a bit

Cause there's Six million ways to live

Six million, six million ways to live life

Boy, there's six million ways to live life

Whole lot to give yo, So we grab mice

Cause there's six million ways to live lavish

Beyond all the misery and mathematics

Cause there's six million ways to live

Six million ways to live

How you livin', power driven to the maximus, passionate

Innocent to where the action is

A small fraction of the population

Holding down its occupation

It's wrong concentration

A simple conversation

I'll listen to the rhythm

Sometimes we don't agree

But not afraid to talk about it openly

I took it overseas to lock it down totally

Package it like groceries

You take it to the apex

Even straight brothers golden

to my peeps across the ocean

Brother you sober or stay smokin'

Down-Down to earth or stay floatin'

Flood gates about to break open

Six million ways to live

Six, Six-Six-Six million ways to live life

Boy, there's six million ways to live life

Whole lot to give yo, So we grab mice

Cause there's six million ways to live lavish

Beyond all the misery and mathematics

Oh, there's six million ways to live

Six million ways to live

Cause there's six million ways to live lavish

Beyond all the misery and mathematics

Six million ways to live

Six million ways to live

Six million pieces is the puzzle that I'm tryin' to solve

Over the years evolved

Thought we'd never fall

Invincible, on any instrumental

I live like the Count of Monte Cristo

Point blank out the pistol

Dub it while I rip through you

I got more important things

Holding championship rings

If not for the bling

It fall apart like everything

I live this way for a while

Cut the strings and the seams

We on to better things

We on to better things (things, things)

Still livin' (livin', livin', livin')

Still chillin' (chillin', chillin', chillin')

Six million ways to live

Six-Six-Six million ways to live life

Boy, there's six million ways to live life

Whole lot to give yo, So we grab mice

Cause there's six million ways to live lavish

Beyond all the misery and mathematics

Oh, there's six million ways to live (Six million)

Six million ways to live (Six million)

Cause there's six million ways to live lavish

Beyond all the misery and mathematics

Six million ways to live

Six million ways to live

Six million ways to live

Six-Six-Six million ways to live life

Boy, there's six million ways to live life

Whole lot to give yo, So we grab mice

Cause there's six million ways to live lavish

Beyond all the misery and mathematics

Oh, there's six million ways to live (Six million)

Six million ways to live (Six million)

Cause there's six million ways to live lavish

Beyond all the misery and mathematics

Six million ways to live

Six million ways to live
