### 04\_Evolution Orange

Par Earth Wind & Fire

*Album : Raise!*

Seeing

Seeing is believing

It's the greatest feeling

Knowing in your heart

**Trust yourself**

Look ahead

Feel the motion growing

Love is where it's going

This is where our real journey starts

Down through the years

Throughout the stars

**Ancient the dream**

**Future evolves**

**Shining light**

**Now in sight**

**Evolution orange**

**Wondrous flight**

**Now in sight**

**Evolution orange**

Patience

Healer and the giver

Patience will deliver

Fire from the spark

**Trust yourself**

Reach inside

Have no hesitation

Give no explanation

How you know who you are

**Down through the years (Down through the years)**

**Throughout the stars (Throughout the stars)**
