# From Every Sphere

Par Ed Harcourt

*Album : From Every Sphere*

Take me far away

And make me lose control

For now I need to pray

Think of forgotten souls

**Disappear from every sphere**

**Watch them high**

**Then slowly die**

**Then slowly die**

If you shut your eyes

You'll float through the blackest hole

So sure in night time sky

You see forgotten souls

Disappear from every sphere

Watch them high

Then slowly die

Then slowly die

Then slowly die

Then slowly die

Then slowly die

...
