From Every Sphere

Par Ed Harcourt

Album : From Every Sphere

Take me far away

And make me lose control

For now I need to pray

Think of forgotten souls

Disappear from every sphere

Watch them high

Then slowly die

Then slowly die

If you shut your eyes

You'll float through the blackest hole

So sure in night time sky

You see forgotten souls

Disappear from every sphere

Watch them high

Then slowly die

Then slowly die

Then slowly die

Then slowly die

Then slowly die

...
