# LOST INTO THE NIGHT

Par Elisa

Album : S.E.B. ?a?¶??D•@D SELECTION 2

### Love is fire

Shines the moon, the sky is blue

I tell you that my love is true

If you hold me tight

Stand by me now

### Make me feel all right

### And you gonna take me high

### Feel like a bird in the sky

### And nobody (I) know could love you

### More than me tonight

**It's just a state of mind**

**Lost into the night**

**I wanna feel your body, kiss me and**

**Drive me crazy**

**Fantasy all night**

**Forever you keep me high**

**Don't loose me baby**

**Lost into the night**

**I wanna stay with you forever**

My desire

**Gimme love tonight**

**And nothing is gonna change**

**Love is fire**

Blue the sky, dark the night

I really wanna take you high

**Make me feel all right**

Hold me tight now

Spend with me your life

**And you gonna take me high**

**Feel like a bird in the sky**

**And nobody (I) know could love you**

**More than me tonight**

**It's just a state of mind**

**Lost into the night**

**I wanna feel your body, kiss me and**

**Drive me crazy**

**Fantasy all night**

**Forever you keep me high**

**Don't loose me baby**

**Lost into the night**

**I wanna stay with you forever**

My desire

**Gimme love tonight**

**And nothing is gonna change**

**Love is fire**

**Lost into the night**

**I wanna feel your body, kiss me and**

**Drive me crazy**

**Fantasy all night**

**Forever you keep me high**

**Don't loose me baby**

**Lost into the night**

**I wanna stay with you forever**

**Gimme love tonight**

**And nothing is gonna change**

**Love is fire**

**Lost into the night**

**Lost into the night**

**Lost into the night**

**Lost into the night**

**Love is fire**

**Lost into the night**

**Fantasy all night**

**Lost into the night**

**Gimme love tonight**

**And nothing is gonna change**
