Rock Me When He's Gone (Piano Demo)

Par Elton John

Album : Madman Across The Water

Warm the wine and give it to me one more time again

I'm just a rolling stone who needs a drop of rain

And to taste your honey, Mona, is like licking on the sun

My truck's hid in the backyard so come here and give me some

Lady, that's the way you gotta rock me when he's gone

You make me feel like a diesel train going home

We got so much to give each other and we've only just begun

So take me baby, break me lady, you gotta rock me when he's gone

Take me baby, break me lady, you gotta rock me when he's gone

Break the bread in two and you can give me half

I've ridden hard and fast just to make you laugh

To make you laugh, I've stood knee-deep in mud outside your door

Clutching in my hand, a border rose from Baltimore

Lady, that's the way, yeah, you gotta rock me when he's gone

You make me feel like a diesel train going home

We got so much to give each other and we've only just begun

So take me baby, break me lady, you gotta rock me when he's gone

Take me baby, break me lady, you gotta rock me when he's gone, oh

Oh, I said, lady, that's the way you gotta rock me when he's gone

You make me feel like a diesel train going home

Oh, we got so much to give each other and we've only just begun

So take me baby, break me lady, you gotta rock me when he's gone, whoa

Come on and rock me, come on and rock me

Come on and rock me, rock me when I'm gone

Come on and rock me, come on and rock me

Come on and rock me, rock me when he's gone, oh

Come on and rock me, woo, come on and rock me

Come on and rock me, rock me when he's gone

Come on and rock me, come on and rock me

Woo, you gotta rock me, rock me when I'm gone, woo

Oh yeah

Come on rock me, baby, rock me when he's gone

Oh yeah
