Sometimes Memory Fails Me Sometimes

Par Everyone Asked About You

Album : Sometimes Memory Fails Me Sometimes

Where did you go?

I wanted to know

It's those little things that you do

That keep me hanging onto you

The way you breathe a little sigh

Every time you look into my eyes

The way you question all the answers

With your question marks and I-don't-care stares

The way you tilt your head up to the sky

When a plane flies by

The way you question all the answers

With question marks and I-don't-care stares

Where did you go?

I wanted to know

It's those little things that you do

That keep me hanging onto you

The way you breathe a little shy

Every time you look in my eyes

The way you question all the answers

With your question marks and I-don't-care stares

The way you tilt your head up to the sky

When a plane flies by

The way you question all the answers

I don't care
