# Fools Cry

Par Fancy

*Album : The Magic Of Fancy*

Once upon a time there was a love

It wasn't meant to be given up

Forever free to shine

Once it found a way in time and space

Turned our darkness into craze

Forever yours and mine

**Running wild**

Far away

**Sailing through the night**

**Burning love**

**A star away**

**Following the light**

**Fools cry and then they turn around and sigh**

**For life's a lonely lie**

**No way to lose what I found and silent rain is falling down -**

**Whenever fools cry**

**Whenever fools cry**

Love

A secret journey

My crusade

A sane and daring masquerade

I'm holding on to you

**Running wild**

Far away

**Sailing through the night**

**Burning love**

**A star away**

**Following the light**

**Fools cry and then they turn around and sigh**

**For life's a lonely lie**

**No way to lose what I found and silent rain is falling down -**

**Whenever fools cry**

**Whenever fools cry**

Lifetime's another moment with you

Tender and wild

Then a tear of a fool shatters the crystal - why do fools cry?

**Running wild**

Far away

**Sailing through the night**

**Burning love**

**A star away**

**Following the light**

**Fools cry and then they turn around and sigh**

For life's a lonely lie

No way to lose what I found and silent rain is falling down -

Whenever fools cry

Whenever fools cry
