Where We Belong

Par Fedde Le Grand & Di-Rect

Album : Future Trance Vol.67

Into the great wide open

Pacing through the universe

Sailed across the darkness

Followed by years of silence

Here we're out in the open

Shooting stars without a hope

Often search of wisdom

High above fallen kingdom

Hold me when the sun is down

Till the morning light awakens

Shadows will be fading

Showing us where we belong

Hold me when the sun is down

Till the morning light awakens

Shadows will be fading

Showing us where we belong

Into the great wide open

Craving for infinity

Hearts are set in fire

Loves are one, true desire

Here we're out in the open

Shooting stars without a hope

Often search of wisdom

High above fallen kingdom

Hold me when the sun is down

Till the morning light awakens

Shadows will be fading

Showing us where we belong

Hold me when the sun is down

Till the morning light awakens

Shadows will be fading

Showing us where we belong

Showing us where we belong

Showing us where we belong
