Cancer

Par Filter

Album : MagicMusic.org

I cross the oceans

I cross the seas

I cross the mountains

Like a new disease

I cross the borders

I cross the line

Never to see the light

'Til the end of time

I've seen the canyons

I've seen the cities

I've seen the prisons

That take such pity

When it comes to you

When it comes to me

It's just money that will set you free

Hey my children

What seems important won't last forever

Hey my children

What seems important won't last forever

Take a look at the Earth

From a plane

You'll see the Earth

Cut up and in pain

Take a look at L.A.

From the sky

What you see

Should make you cry

Hey my children

What seems important won't last forever

Hey my children

What seems important won't last forever

I'm the scum of the Earth

I'm the scum of the Earth

I'm the scum of the Earth

I'm the scum of the Earth

I'm the scum of the Earth

I'm the scum of the Earth

I'm the scum of the Earth

I'm the scum of the Earth

I'm the scum of the Earth

I am a cancer

I'm the scum of the Earth

I am a cancer

I'm the scum of the Earth

I am a cancer

I'm the scum of the Earth

I am a cancer

I'm the scum of the Earth

I am humanity

I'm the scum of the Earth

I am humanity

I'm the scum of the Earth

I am humanity

I'm the scum of the Earth

I am humanity

Hey my children

What seems important won't last forever

Hey my children

What seems important won't last forever

Hey my children

What seems important won't last forever

Hey my children

What seems important won't last forever
