Podunk

Par Foo Fighters

Album : Winnebago

Power is a secret that they never even teach

Only if it's black or white, see the challenges

Open eyes are broken if you'd just consider me

Cut you loose, I feel like I gotta, gotta leave

Find an answer, help yourself

Find an answer, help yourself

Whatever kind of phony body chewed it through the night

Soda is left to block away the case of broken heart

Spit out fast for fun for it's the only way to win

Take my breathe, come back inside, a secret it will be

I got an answer, help yourself

I got an answer, help yourself

Help yourself, help yourself

Help yourself, help yourself

Power is a secret that they never even teach

Only if it's black or white, see the challenges

Open eyes are broken if you'd just consider me

Cut you loose, I feel like I gotta, gotta leave

I got an answer, help yourself

I got an answer, help yourself

Help yourself, help yourself

Help yourself, help yourself
