# When It Comes To Love

Par Foreigner

*Album : In Concert : Unplugged*

I remember the day  
Seems so far away  
When i walked into your life  
And the look in your eyes  
How it took you by surprise  
But it felt so right  
  
Then i drew you in  
Told you anything  
'Cause I wanted you so bad  
Girl i led you on  
Said there's nothing wrong  
In giving your heart to me  
  
But when it comes to love

**I should know better**

**When it comes to love**

**I take the blame**

**'Cause you are the one I should've held on to**

Yeah, it could've been you

I never realized

How time was on my side

Lost sight of my perfect world

And the man that ive become

From the damage that i've done

It's so clear to me now

But I wished that I

Never was the kind

To steal a lonely heart

And I didn't see how good you were for me

Now it's too late to go back

'Cause when it comes to love

**I should know better**

**When it comes to love**

**I take the blame**

**'Cause you are the one I should've held on to**

**When it comes to love**

**Girl I can't help it**

**When it comes to love**

**I always lose my way**

**And you are the one I should've held on to**

**Ah, it could've been you**

Making a change in my heart

Finding a new place to start

Wondering what I can do

Will I ever get over you, no

**When it comes to love**

**I should know better**

**When it comes to love**

**I take the blame**

**'Cause you are the one I should've held on to**

When it comes to love

Girl I can't help it

When it comes to love

I always lose my way

And you are the one I should've held on to

Ah, it could've been you
