Below Zero

Par Fridayy

Album : Below Zero

Summer's over and you're still not sober

You've been movin' too fast now the time movin' slower

I'm still on the line when they turn on the lights

It's time to call it in, hope I'm still on your mind

Don Julio taste like water on your lips

You had one too many trips

Tryna run away from home, they like Miami where she live

On a Sunday gettin' lit

I pray you make it back

'Cause when September comes around

And the leaves are fallin' down

And October's closin' in, hmm

It's gettin' scary when November, November ends

I'm tryna catch 'fore your heart turn December cold, freezin' cold

Your temperature's low

I'm standin' at the door, I wanna love you, ooh

Before you get below zero

Baby, it's gon' take some time, I'll get it out your system

All that partyin' deep in clubs, but you're losin' your rhythm

Too much layin' out, you don't know I'm more than this

Better wake up before you lose out on this (ooh)

And I ain't got no pride to save you, oh, my woman (my woman)

I just want you inside to give you all my lovin', oh

You're losin' your soul, but you call it soul searchin'

Oh, I'm losin' hope

Don Julio taste like water on your lips (taste like water on your lips)

You had one too many trips (one too many trips)

Tryna run away from home, they like Miami where she live

On a Sunday gettin' lit (oh)

I pray you make it back

'Cause when September comes around ('cause when September comes around)

And the leaves are fallin' down (and the leaves are fallin' down, oh)

And October's closin' in, hmm (and October's closin' in)

It's gettin' scary when November, November ends

I'm tryna catch 'fore your heart turn December cold, freezin' cold

Your temperature's low

I'm standin' at the door, I wanna love you, oh-oh

Before you get below zero

December cold, freezin' cold

Your temperature's low

I'm standin' at the door, I wanna love you, oh-oh

Before you get below zero
