# Void

Par Fritz Kalkbrenner

*Album : BRAVO Hits Vol. 88 CD1*

I miss those lights around town

Where have they all been gone?

When I had you deep within my sight

I didn't have enough to throw in

It's these writings on the wall that I can follow

I see the signs of the times leaving me divide and hollow

**Under a void sky, I'm laying myself down**

**Under a void sky, I'm coming around**

**Under a void sky, I try to get by**

**Under a void sky, I'm going in to fly**

Don't let me go down this road

Stop me from leaving

So I can save your life tonight and

And we could call it even

I keep on marching if I can

Keep on crawling if I have too

But I keep on dancing out of the dark

Into the blue

**Under a void sky, I'm laying myself down**

**Under a void sky, I'm coming around**

**Under a void sky, I try to get by**

**Under a void sky, I'm going in to fly**

**Under a void sky, I'm laying myself down**

**Under a void sky, I'm coming around**

**Under a void sky, I try to get by**

**Under a void sky, I'm going in to fly**
