Album : LOST DOG

It comes in waves

It goes away for days

Sometimes we dance when it stays

It holds me in its soft embrace

It's got my face, i'm sure

It looked me straight in mine

It wants me dead, i'm sure

It makes me think bad thoughts

It's in my head

It won't let me forget

Repeating every word I've said

But I'm not six feet deep, not yet

It's got my face, I'm sure

It looked me straight in mine

It wants me dead I'm sure

It makes me think bad thoughts

You didn't ev?n care

You'd leave it 'til th? end

To tell me all the flaws that you saw

You couldn't even dare take a look at me laid bare for you

And i thought you wanted to

You'd wait for me to go

And stop me at the door

To tell me all the flaws that you saw

You couldn't even dare take a look at me laid dead for you

And i thought you wanted to
