Closer

Par Gabriel & Dresden

Album : Gabriel & Dresden

Thinking about everything I got

What it means and what its like

Feeling that stone in on my head

Afraid to fall I'm flying instead

Waiting, I'm never gonna stop

For what things are and what they're not

Taking this place where I can find

What's left before I get what's mine

Stay by my side

I'm closing my eyes

Until this breath is over

Here in your sight

No need to ask why

Let's take this one step closer

Let's take this one step closer

Waiting, I'm never gonna stop

For what things are and what they're not

Taking this place where I can find

What's left before I get what's mine

Stay by my side

I'm closing my eyes

Until this breath is over

Here in your sight

No need to ask why

Let's take this one step closer

Let's take this one step closer

Stay by my side

I'm closing my eyes

Until this breath is over

Here in your sight

No need to ask why

Let's take this one step closer
