Not Alone

Par Gabry Ponte

Album : Not Alone

You're not alone

You're not alone

Not alone

Not alone, no

Not alone

You're not alone

Not alone

Yeah I know that you counted on me

To be by your side

When the world starts to bleed

But I kept myself busy

To not think about

Losing you

Cause it stressed the hell out of me

You got burned at the stake

When you gambled with hell

I was blinded

I got carried away

Can I hold you, hold you in my arms?

To alleviate the pain in your heart

Can I see you, see you one more time?

I won't leave you, leave you in the dark

You're not alone

You're not alone

Not alone

Not alone, no

Not alone

You're not alone

Not alone

I wanna hold you, hold you in my arms

To alleviate the pain in your heart

Can I hold you, hold you in my arms?

To alleviate the pain in your heart

Can I see you, see you one more time?

I won't leave you, leave you in the dark

Can you still hear my voice

When the darkness kicks in?

Stay with me till I get through to you (through to you)

Hope you know that you're loved

And that I am so grateful for you

Promised I'll always look after you

I got burned at the stake

When you gambled with hell

I was not there

I got carried away (carried away)

Can I hold you, hold you in my arms? (hold you in my arms)

To alleviate the pain in your heart (pain in your heart)

Can I see you, see you one more time? (see you one more time)

I won't leave you, leave you in the dark (leave you in the dark)

You're not alone

You're not alone

Not alone

Not alone, no

Not alone

Not alone

Not alone

I wanna hold you, hold you in my arms (hold you in my arms)

To alleviate the pain in your heart

Can I hold you, hold you in my arms?

To alleviate the pain in your heart

Can I see you, see you one more time?

I won't leave you, leave you in the dark
