Giant

Par Gentle Giant

Album : Gentle Giant [2010, UICY-20126]

The birth of a realisation

The rise of a high expectation

Together successful, defiant

Together the parts make a giant

See the world in the palm of his hand

Striding steps that will cover the land

He is coming

Hear him coming

Are you ready

For his being?

Hear the giant

Feel the giant

Touch the giant

See the giant

Together successful, defiant

Together the parts make a giant

The birth of a realisation

The rise of a high expectation
