# She'll Leave You With A Smile

Par George Strait

*Album : For The Last Time? Live From T*

I can see you're falling for her

Friend you know she once was mine

So I guess I oughta warn you

'Cause you're showing all the signs

**She's a devil, she's an angel**

**She's a woman, she's a child**

**She's a heartache when she leaves you**

**But she'll leave you with a smile**

When she held me it was heaven

It was worth the losing pain

And when she's gone she'll leave you wishin'

She'd just roll your way again

**She's a devil, she's an angel**

**She's a woman, she's a child**

**She's a heartache when she leaves you**

**But she'll leave you with a smile**

Yes, she's a devil (she's a devil)

She's an angel (she's an angel)

**She's a woman, she's a child**

**She's a heartache when she leaves you**

But she'll leave you with a smile.
