You Sure Got This Redneck Feelin' Blue

Par George Strait

Album : Something Special

Oh, I recall some barroom brawls that I got myself into

Just a stitch or two got me back together

But what's it take to ease the ache that came with losing you?

I thought I was tough, but goodbye's too much

This healing is taking forever

Woman, you sure got this old redneck feeling blue

What's going on inside me I ain't used to going through

This ol' country boy's hillbilly heart is breaking in two

Yeah, you sure got this old redneck feeling blue

I've never seen anything hit me quite like this

You know the pain and loneliness, it keeps hanging with me

Oh, this good time Joe, he took quite a blow

Oh, why'd you call it quits?

It'll take some time to mend my mind

And put me out of my misery

Woman, you sure got this old redneck feeling blue

What's going on inside me I ain't used to going through

This ol' country boy's hillbilly heart is breaking in two

Yeah, you sure got this old redneck feeling blue

Woman

Yeah, you sure have this old redneck feeling blue
