Wrap My Body Tight

Par Gill, Johnny

Album : Johnny Gill

I fell out of bed this morning

Oh, somethin' was buggin' me

I couldn't sleep, 'cause I hadn't had any lovin'

So, I've got to solve this problem out, baby

And darling, I know what the remedy should be

At night when I turn out the lights

I want someone to wrap my body tight

A lover to keep my body warm

I need a woman to wrap my body tight

As the day goes by, thought weighs heavy on my mind
Only thing I think about is tonight the lights go out (ooh)
And I hope it's you tonight
But not just tonight
Every day and every night, I want your love
Hold me, sweet-sweet love

So, I'm tellin' you my problems
Because I know you know exactly what I need (whoa!)

At night when I turn out the lights

I want someone to wrap my body tight

A lover to keep my body warm (I've got that air)
I need a woman to wrap my body tight (the air to love)

At night when I turn out the lights

I want someone to wrap my body tight

A lover to keep my body warm (c'mon, c'mon, c'mon)
I need a woman (I'm posh in the world) to wrap my body tight (oh-oh, oh-oh)

Come on, come on and squeeze me, girl

I wrap, wrap my body

I wrap, wrap my body

Real tight, yeah-yeah

Girl, I have to solve this problem

And I know what the remedy should be

I need someone to hold me

I need a woman right here, right here next to me

At night when I turn out the lights

I want someone (someone) to wrap my body tight (c'mon, c'mon)

A lover to keep my body warm (let it, let it and leave it contact you, baby)

I need a woman to wrap my body tight (brush your wings to show the wonder of home it is)

At night when I turn out the lights (they caused you to help me, babe)

I want someone to wrap my body tight (squeeze me, me)

A lover to keep my body warm

I need a woman to wrap my body tight (someone, someone to hold me tight)

At night when I turn out the lights

I want someone to wrap my body tight (got this safe)

A lover to keep my body warm

I need a woman to wrap my body tight (miss it if you want)

Come on, work me

Hold me, love me, squeeze me
