The Innocent

Par Goldfinger

Album : The Best Of

The start of Armageddon

It was just another day

We all saw the news had things to say

So many friends are missing

Family members gone

So we all prayed God help them be strong

Now we stand together

Remembering that day

Our lives we live will never be the same

We don't know why

The innocent die

Will this world ever find a way to change?

We don't know why

But we know it's not right

Don't know why so many had to die

Don't know why so many had to die

Hate has turned to others

For their religion or their skin

But hate can't solve the problem it began

Everyone is angry

People are afraid

No one knows what decisions will be made

We don't know why

The innocent die

Will this world ever find a way to change?

We don't know why

But we know it's not right

Don't know why so many had to die

Don't know why so many had to die

We don't know why (don't know why)

The innocent die (don't know why)

Will this world ever find a way to change?

We don't know why

But we know it's not right

Will any of us ever be the same?

Will any of this ever be the same?

I don't know why

The innocent die

Will any of us ever be the same?

Any of this ever be the same?
