Bodies

Par Good Charlotte(? ??)

Album : Motel Du Cap

I bought a gun

She's got it in the backseat

Next to the roll, three Vacherons

The ones I keep next to me

She don't want the drugs

She only wants luxury

She's into funds, not little ones

Gotta call the notary

If you're gonna push me, push me to the edge

If you want to kill me, better kill me dead

If you're gonna hurt me, do it with the head

I'll be countin' bodies underneath her bed

I'll be countin' bodies (bodies)

I've been countin' bodies

Signature Air

They treat her like she's royalty

Black metal card, black caviar

She's familiar with the catering

It's not where she's from

She's exactly where she wants to be

She'll try anything once, she'll get what she wants

Professionally

If you're gonna push me, push me to the edge

If you want to kill me, better kill me dead

If you're gonna hurt me, do it with the head

I'll be countin' bodies underneath her bed

I'll be countin' bodies (bodies)

I've been countin' bodies

If you're gonna push me, push me to the edge

If you want to kill me, better kill me dead

If you're gonna hurt me, do it with the head

I'll be countin' bodies underneath her bed

If you're gonna push me, push me to the edge

If you want to kill me, better kill me dead

If you're gonna hurt me, do it with the head

I'll be countin' bodies underneath her bed

I'll be countin' bodies (bodies)

I've been countin' bodies
