# Demon Days

Par Gorillaz

*Album : Demon Days (full version 2005) (single)*

In demon days, it's cold inside

You don't get nobody, people sigh

It's so bad, lasting far but love yourself

Hiding in a hole in there

All the glasses are too big

Bring it back, got to hold it back

To let you do that yet you don't want me back

Before it fall down, falling down, falling down

Falling out to go far from the sun

**In these demon days it's so cold inside**

**So hard for a good soul to survive**

**You can't even trust the air you breathe**

**'Cause Mother Earth wants us all to leave**

**When lies become reality**

**Numb yourself with drugs and TV**

**Pick yourself up it's a brand new day**

**So turn yourself round**

**Don't burn yourself, turn yourself**

Turn yourself around into the sun!

**In these demon days it's so cold inside**

**So hard for a good soul to survive**

**You can't even trust the air you breathe**

**'Cause Mother Earth wants us all to leave**

**When lies become reality**

**Numb yourself with drugs and TV**

**Pick yourself up it's a brand new day**

**So turn yourself round**

**Don't burn yourself, turn yourself**

Turn yourself around into the sun

**To the sun, to the sun**

**To the sun, to the sun**

**To the sun, to the sun**

**To the sun, to the sun**

**To the sun, to the sun**

**To the sun, to the sun**

**To the sun, to the sun**

**To the sun, to the sun**

**To the sun, to the sun**

**To the sun, to the sun**

**To the sun, to the sun**

**To the sun, to the sun**

To the sun
