Afterglow

Par Great White

Album : The Best Of Great White 1986-1

Your love, love is all around me everywhere

Love has come to touch my soul with someone who really cares

No one can deny us people who once passed me by will turn their heads and

I am happy just to be with you

And loving you the way I do

Is everything I need to know

Just a resting in the afterglow of your fire

You, yes, you have always been here, a feeling deep inside

A feeling that I could not see, or touch or try to hide

My love is in and without you, I bless the day that I found you

So listen, baby

I am happy just to be with you

And loving you the way I do

Is everything I need to know

Just a resting in the afterglow of your fire

Love is like a voice in my head

Keeps turning out the things that we said

I am happy just to be with you

And loving you the way I do

Is everything I need to know

Just a resting in the afterglow of your love
