In Your Paradise

Par Green Carnation

Album : A Dark Poem, Pt. I: The Shores of Melancholia

The final call, the tragedies

Catastrophes are here

It's in your head, ah

The end is near, the casualties

Adversities are here

It's in your head, ah

Alive when you are alive

That's your paradise

Imposters' words will expire

In your paradise

The accidents, fatalities

Calamities are here

It's in your head, ah

The Babylon, apostasy

The Judgment Day is here

It's in your head, ah

Alive when you are alive

That's your paradise

Imposters' words will expire

In your paradise

These are the lies

You don't want to blossom, furthermore

These are the lies

You don't want to stay alive

The fear of the unknown

The sound of the sacred

The tale of the godly

The look of the God inside

I see it in your eyes

I see it in your eyes

I see it in your eyes

I see it in your eyes

Destiny, the misery

Exigency is here

It's in your head, ah

Collapse is near, emergency

The cataclysm's here

It's in your head, ah

Alive when you are alive

That's your paradise

Imposters' words will expire

In your paradise

These are the lies

You don't want to blossom, furthermore

These are the lies

You don't want to stay alive
