# You Can't Stop Me (live)

Par Guano Apes

*Album : The Complete Single Collection*

Someone who's coming out, to see a lot of our destination

A maniac neurotic who wants to jump of the eye

How can you know that I'm the one who lives no matter of occasion

Another road another try

Where's the difference tell me why

**You can't stop me**

**To love the world with all inside**

**Keep it to myself**

**Keep it to myself**

**You can't stop me**

**I'm close enough to kiss the sky**

**Keep it to myself again, again**

Why you coming out to see a lot of less destination

I want look back for the shadows that grown up to me

We're trapped in a song so we leave them to handle authorization

Another you another me

Where's the difference telling me

**You can't stop me**

**To love the world with all inside**

**Keep it to myself**

**Keep it to myself**

**You can't stop me**

**I'm close enough to kiss the sky**

**Keep it to myself again, again**

**I just want to rock them up**

**Mess them up**

**Running to the eye**

**Running to myself**

**Rock them up**

**Mess them up**

**Running to the cosmic ways**

**Running to myself**

**Running to myself**

**I just want to rock them up**

**Mess them up**

**Running to the eye**

**Running to myself**

**Rock them up**

**Mess them up**

**Running to the cosmic ways**

**You can't stop me**

**To love the world with all inside**

**Keep it to myself**

**Keep it to myself**

Won't you stop me

**I'm close enough to kiss the sky**

**Keep it to myself again, again**

again, again

**I just want to rock them up**

**Mess them up**

**Running to the cosmic ways**
