Let's Get It On

Par Hammerfall

Album : Hammerfall

Standing alone, it's the ultimate proving ground

As real as it gets, we're soldiers of one-man armies

Burning inside, hear the audience scream

We've got a yearning inside to fulfill our destiny

The lights go down, no more fears

The crowd goes wild, music to our ears

Get it on

Let's get it on - It on

Come on, get it on - It on

Let's get it on - It on

Come on, get it on

Nowhere to run, like an animal caged and cornered

Standing so proud, it's the life we have chosen

(We do what) We were bred to do, were trained to do

We live to do what we were born to do

Get it on

Let's get it on - It on

Come on, get it on - It on

Let's get it on - It on

Come on, get it on

Pulled from the ashes and forged from traditions

The essence of power, behold demolition

Are you ready?

Are you ready? - Get!

Are you ready? - It!

Are you ready? - On!

Come on, get it on

Let's get it on

Come on, get it on

Get it on

Let's get it on - It on

Come on, get it on - It on

Let's get it on - It on

Come on, get it on

Let's get it on

Come on, get it on!
