# Reach the Light

Par Hand of God

*Album : The Hand of God*

Look around... It's revealed

That some tears lead to nothing

Face the truth... It's just you

All alone in the darkness

On and on, I moved on

**Lookin' up and flying higher**

**Touch the sky and feel the silence**

**A survivor of an endless night**

**I've reached the light**

It's a fight... Just be strong

And hold on... All that matter

That's enough... I float free

In the stream, let myself go

On and on, I moved on

**Lookin' up and flying higher**

**Touch the sky and feel the silence**

**A survivor of an endless night**

**I've reached the light**

**Lookin' up and flying higher**

**Touch the sky and feel the silence**

**A survivor of an endless night**

**I've reached the light**
