Lone Wolf

Par Hank Williams, Jr.

Album : The Bocephus Box: The Hank Williams Jr. Collection 1979-1992

There aint no man gonna invade my territory there aint nobody out there gonna mess with me

Because I'm big and hard and battlescarred and getting long in the tooth desperate and hungry and got nothing to loose.

Yeah I'm a lone wolf I've been chased and I've been bit.yeah I'm a lone wolf.They like to shoot at me but they miss.

Yeah I'm a lone wolf and I ain't never been trapped, and God help the people that think they got me cornered at last.

I've been hunting.I've been tracking. I've been running since I was 3, born in Louisiana Swamp, moved with the pack to Tennessee.

Raised by black and white dogs to some country, some rock-n-roll. They said now boy your gonna have to quit your houlling so.

Staying up all night and chasing Lassies by the moon laying up all day on the porch playing guitar tunes.

Yeah I'm a lone wolf and I no longer run with the pack.Yeah I am a lone wolf.I don't ever look back.

Hey I am a lone wolf out here on the prowl and most of us have been penned up but I'm still running wild.

Hey I'm a lone wolf.I've been chased and I've been bit.Yeah I am a lone wolf this ole dog knows all the tricks.

Hey I'm a lone wolf.Still hungry and I'm on the prowl, and most of us have been penned up but Bocephus is running wild.

You better watch out because I'm hungry and I'm on the prowl.
