### My Salvation

Par Haunted, The

*Album : Exit Wounds*

I'm the master of my own world

I control every second

You're the virus infecting my blood

Spreading like cancer

Falling from reality

It's happening

You're weakening me

The closer you get

The heavier the burden

Slowly fading

Soul is dying

I don't know why the fuck I'm still standing

What is pulling me up?

I can't see, but my eyes are burning

**The pain never fades away**

**Salvation not happening**

**Screams my name**

Entering purgatory

I can feel I'm all over breaking

Breaking apart

I'm alive, but I know I'm not living

I linger in pain

Only way to avoid it

I know it won't help

A stab in the chest

Slow and deep

I don't know why the fuck I'm still breathing

The pain intensifies

Should have ended it quicker

We're killing this

I should be free

**Salvation not happening**

**Screams my name**

**The pain never fades away**

All of my problems

Pouring out of the wound

**Silenced by the blade**

**Silenced by the blade**

It's all silenced by the blade

**Silenced by the blade**
