Album : Insomnia

Alright

So if you got em, light em up

Open your mind

Lets go to war

Today's the day, the time is here

We take back control and conquer our fears

For as it was written, my friend, so shall it be

I ride with the Most High, who can stand against me?

Ride with me and advance towards the light

In the darkness, I break it down

Slowly roll up and spark this, in this moment on this track

I attack all the lies, we accept it as truth

We were duped by the schoolbooks and teachers

The blind leading the blind through the Garden of Eden

But time after time we had the prophets to lead us

But line after line was written down to deceive us

But they will never defeat us

Until the end of time

I will rebel in the face of all tyrants

The fire burns on high

As above so below, now be careful

Until the end of time

We will fight for the rights of our children

The fire burns inside

My curiosity leads me to Zion

Wake the fuck up

So if you got em, light em up, warriors

Come out and play

Listen, in the year 2007 AD

The working man got so tired of waiting

Not all those who have eyes will see what I'm saying

Not all those who have ears will hear a note that we playing

Homie, you know me, I dont fuck with no phonies

All these cronies in this industry can all kneel down and blow me

I came to do battle with the counsel of churches

Politicians and gunmen who would lie, rob, and hurt us

Keep us deaf, blind, and dumb so we cant find our guns

Asleep when the storm troopers come for our moms

So run, nigga, run til you cant catch your breath

It's too late coz you already dead

But you wide awake, you already dead

But you wide awake, you already dead

But you wide awake, you already dead

You're in a fucking coma

Until the end of time

I will rebel in the face of all tyrants

The fire burns on high

As above, so below, now be careful

Until the end of time

We will fight for the rights of our children

The fire burns inside

My curiosity leads me to Zion

Listen carefully, I don't have much time left

There are so many things I wanna tell you

For we have to be careful

I think I'm being watched

Galileo was imprisoned by the church for exposing

That the Earth was not at the center of the universe

So in 1616, they already had control

Of what they thought you and I were allowed to know

They knew the world wasn't flat

But that was knowledge we weren't supposed to have

They knew all about the new world

Way before Christopher Columbus set sail

Witness the rebirth of Atlantis

And we're all apart of it

What a beautiful fucking time to be alive, ah?

You know I'm not surprised

The Illuminati had to keep it a secret

I'm surrounded by fucking idiots

Jesus fucking, fucking Christ

Until the end of time

The fire burns on high

Until the end of time

The fire burns inside

My curiosity leads me to Zion

Wake the fuck up

So if you got em, light em up, warriors

So if you got em, light em up, warriors
