# Strong, Strong Wind

Par Heart

*Album : Greatest Hits*

We were too hateful

There were too many storms

We could not get through

But I still kept loving you

Fate brought you back to me

This time i won't let you leave

I'm holding on to you Forever

I'm never letting go

**The time I spent away from you**

Was time that made me see

I need to live my life with you

I need you here with me

**And It would take a strong, strong wind**

**To take me from your arms again**

**To take me from your side**

**And It would take a strong, strong wind**

**To pull away this heart of mine**

**Make us break apart this time**

**And It would take a strong, strong wind**

Hearts sometimes lose their way  
But they find their way back someday  
To the arms they need  
And I need you like the air I breathe

**The time I spent away from you**

Was time lost in the rain  
I meant to live my life with you  
That's something nothing can change

**And It would take a strong, strong wind**

**To take me from your arms again**

**To take me from your side**

**And It would take a strong, strong wind**

**To pull away this heart of mine**

**Make us break apart this time**

**And It would take a strong, strong wind**

This time I'm holding on with everything

This time I won't let go for anything

**And It would take a strong, strong wind**

**To take me from your arms again**

**To take me from your side**

**And It would take a strong, strong wind**

**To pull away this heart of mine**

**Make us break apart this time**

**And It would take a strong, strong wind**
