I Swallowed a Dragonfly

Par Heartless Bastards

Album : All This Time

Oh I want to go

To a place we've never been

Be down for a while

While coming up to the surface

I swallowed a dragonfly

In the hopes that it would help me fly

And it did for just one day

And that day I saw everything

And I keep on moving forward

Even when I'm down

And I keep on moving forward

All the time

And I keep on moving forward

All the time

And I keep on moving forward

Even when I'm down

And I don't know

Don't know what it is

That keeps me down
