Time on our side

Par H.E.A.T

Album : Hard-Rock Attack vol.27

We're not the ones we used to be

What happened to our chemistry

What happened to our chemistry

Can't put my finger on it now

What can we do to turn it around

Turn it around

I know it gives you peace of mind

But would you walk away

And leave our world behind

And if you give it another chance

I would give my all the future is in our hands

Don't leave now

Please stay around

Time's on our side yeah

Don't leave now

Just thank god we're alive

Coz time's on our side yeah

How could I watch you walk way

It scares me every single day

Every day

And what a stupid game to play

I can't believe the mess I made

The mess I made

Please wont you take my hand

I would give my all to feel it once again

Don't leave now

Please stay around

Time's on our side yeah

Don't leave now

Just thank god we're alive

Coz time's on our side yeah

Don't leave now

Please stay around

Time's on our side yeah

Don't leave now

Just thank god we're alive

Coz time's on our side
