Spit You Out

Par Hot Rod Circuit

Album : The Underground Is A Dying Bre

A revolution of evolution

Clean this mess up

How primitive can you be

It's time to wake up

And for the sake of others around you

That you carelessly deceive

I'll chew you up and spit you out

Your confidence is filled with doubt

Fragile and unsure of your needs

Why can't you just say what you mean

No solution for this pollution

Your mind is clouded

By the things you can't achieve

It's time to wake up

Oh, for the sake of your losing grip

And nothing's ever what it seems
