Another Day To Die

Par I Am Your God

Album : Shotgun

Crawling out from fields of war

My remedy, my home

Prayers of injured men are drowning

Insanity of leaders will never stop this brutal bleeding

Angels' eyes are blistered when humankind is vanishing in the air

Little man let fantasies grow in more and more

As independent havens are invaded

People from so dark and cold will keep themselves awake and front

Angels' eyes are blistered when humankind is vanishing in air

When the war is gone

We stand for glory of the heroes who furiously fought their last time

When the war is gone

Towards the victory we march and I'll choose another day to die

Another day to die

I had to bleed for the last time

I had to bleed for the last time

Crawling out from fields of war

My remedy, my home

One-way train towards the hell is waiting

For cowards and betrayers who left their friends alone in pain

My bullets has their names on 'em, no mercy

I'll put the bullets in their head

Die

Forget this tragedy, or live in psychosis

This human madness is the way to extinction

Deeper and deeper into extinction

When the war is gone

We stand for glory of the heroes who furiously fought their last time

Now the war is gone

Towards the victory we march and I'll choose another day to die

And I have realized

The heaven is closed from our kind

And the traitors will never come back alive

Deeper and deeper into extinction

Forget this tragedy, or live in psychosis

Forget this tragedy, or live in psychosis
